Polls Open Tuesday; Hours: 6 A. M. - 5 P. M.

Precinct polls for the 1964 primary elections will open in Perry County at six a.m. Tuesday and remain open to voters until five p.m.

To be decided by the election are party choices of candidates for representative to Congress from the Seventh Kentucky District, and Judge Court of Appeals, 7th Appellate District.

Five of the county's 40 precinct polls will be located within the city limits of Hazard.

Contending for votes on the ballot are Ann B. Hall and incumbent Carl D. Perkins for the Democratic nomination for Seventh District Congressman and Tom Layne, Walter Clay Vanhoushe and David Amonberg for the Republican nomination for the same office.

For Judge of the Court of Appeals, 7th Appellate District, the Democratic nominees include John Marshall Prewitt, Cassie Patrick Allen, Edward P. Hill, Fred B. Redwine, E. B. Beatty, and Robert B. Bird.

Republicans vying for their party's nomination for the same judgeship are John Marshall Prewitt, E. B. Beatty, Robert B. Bird, and Edward side.

Recipient of God & Country Award

Billy Scott Hays, son of Mr. and Mrs. Nolan Hays, was presented his God and Country Award, by Rev. Leslie Rogers, pastor of the Bowman Memorial Methodist Church, at the church Sunday, May 3.

In order to earn this award, Billy was required to work in the church under the supervision of the pastor for one full year. His present rank is Star Scout, and he holds merit badges in pioneering, fishing, public speaking, home repairs, home citizenship, and swimming.

Mrs. Nolan Hays is shown pointing to the award given her son. Standing next to Billy is his father.

Dr. J. M. Boswell Speaks To 140 Napier Graduates

"What your personality is now will go a long way on what you will do later on in life," Dr. J. M. Boswell, President of Cumberland College, told 140 M. C. Napier graduates at the 12th annual commencement last Friday evening at Memorial Gymnasium.

Dr. Boswell, who spoke on the "Three R's," told the graduates that their reputation with others is most wholesome and would probably determine whether they would succeed in life or not.

Dr. Boswell's "Three R's" were not reading, writing, and arithmetic as one might think by the title but reputation, reading, and reason.

Talking about reading, Dr. Boswell stated, "Reading challenges your thought and by reading alone it is possible for one to educate himself."

Paul H. Colwell, Principal of M. C. Napier, presented the 85 girls and 55 boys to Dennis Wooten, Superintendent of Perry County Schools, for graduation.

Mr. J. R. Hurt, Chairman of the Perry County School Board, presented the special awards to the graduates with Bonnie Sue McIntosh, Mary Lou Napier, and Vera Napier taking top honors.

Bonnie Sue McIntosh won the Valedictorian honor while Mary Lou Napier took the Salutatorian honor. Vera Napier received four awards.

Leatherwood Miner Shot by Sniper

A Leatherwood miner, George Owens, 39, was shot in the thigh Saturday afternoon by a sniper atop a nearby hill, State Police reported.

Mr. Owens was shot while walking through the Leatherwood Mining Camp. He was reported in fair condition today at the Hazard Appalachian Hospital.

Police have made no arrests. They said the sniper apparently used a high-powered rifle because the bullet penetrated Owens' body and left the other Robert B. Bird, and Edward side.

Funeral services were held Sunday, May 24 at 2 p.m. at the home of his father with Rev. T. G. Bates and Willie McIntosh officiating.

Burial was in the Kilburn Cemetery at Avawam with the Maggard Funeral Home in charge of arrangements.

Memorial Meeting Set For May 31

The annual Johnson Memorial Meeting will be held at the Johnson Cemetery, three miles below Buckhorn, Sunday, May 31, 1964. Services will be at 10:00 A. M.

Holt Gibson, Superintendent of Johnson Sunday School, will be in charge of the meeting. Yancey Amis and his group will conduct the singing.

The invocation will be given by Rev. Ed. Amis, Pastor of Johnson Church.

A genealogy of the Johnson generation will be given, dating back to Samuel Johnson, who came from Ireland to North Carolina, then to Perry County Kentucky in 1817.

The introduction talk will be given by the Rev. Beechie Johnson of Buckhorn. There will be preaching service by the Rev. Sant Johnson of Farmersburg, Indiana and the Rev. Robert Johnson of Abeline, Texas. The conclusive message will be delivered by the Rev. Roscoe Neace of Franklin, Ohio.

The Johnson Clan will be represented by friends and relatives from various counties throughout Kentucky and from many other States.

All people are cordially invited to attend this meeting regardless of Race, Color or Church affiliations.

A short business meeting will be held immediately following the conclusion of the service.

Sparkman Speaks To Kiwanians On Broadcasting

At the regular weekly meeting of the Kiwanis Tuesday, May 19, at 6:30, Ernest Sparkman was guest speaker. His subject was radio, May being National Radio Month.

The speaker first told what happened in a radio broadcast during a program, starting with the announcer on through the broadcast equipment, and into the home receiver.

"Due to the fact that radio waves travel 186,000 miles per second," said the speaker, "the time can be given in New York and be correct around the world, since it can arrive at its destination in a split second".

Mr. Sparkman also discussed new "Push Button" tape recorder equipment being installed in WKIC's new studios.

Nin Combs was program chairman.

The only guest was L. Duncan Stokes, a member of the Down Town Kiwanis Club of Louisville and an employee in the Public Relations Department of the Louisville and Nashville Railroad.

lovers should by all means see
this extremely important sound
motion picture in technicolor.

The second film to be shown
Wednesday, May 27 on the
same evening is a brand new
"just released" film entitled,
"Born To Witness". The excit-

Baptist Church To Show "Lucia" Film By Billy Graham

The new Billy Graham feature length, sound-color motion picture, "LUCIA" will be shown at 7:00 p.m., Wednesday, May 27th in the auditorium of the First Baptist Church, Hazard.

This is the story of "LUCIA" coming to the motion picture screen with all of the pathos and poignancy that transcends its Latin setting, to embrace the spiritual needs that are common to every culture and clime around the world.

"LUCIA" was made in its entirety in Buenos Aires, directed by World Wide Pictures President, Dick Ross. The fire and excitement of Gaucho Folk Music, South America's un-

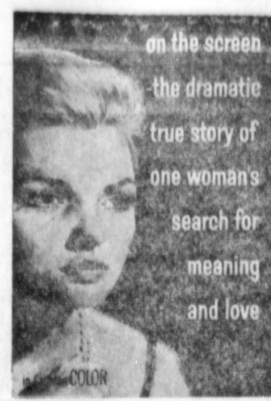

matched scenic grandeur and the excitement that belongs to one of the world's largest cities, are all enriched with full color and authentic sound.

But the real impact of "LUCIA" is to be found in its intimate, utterly honest treatment of an individual's emptiness and frustration apart from the filling of the "God-Shaped Vacuum" with which all mankind is born. With this newest Billy Graham film, "LUCIA" enters into the area of domestic discord and the romantic triangle—and what the Bible has to say in resolving the emotional problems that are the hallmark of the twentieth Century.

COUNTY AGENT'S NOTES

Control Garden Pests Start Spraying or Dusting in Time To Be Effective

Paul Keen — County Agricultural Agent

You can't wage a successful war unless you understand your enemy. So when you start to battle garden pests, you'll need to know the nature of the pest and then fight it in the most effective way.

Insects, rots and blights damage many home gardens every year because the gardener doesn't know enough about his "enemies" or how to fight them. Such garden pests can be controlled by a good spraying or dusting program.

Some gardeners try spraying or dusting but "give up" because they have little or no success with these control measures. Why do some people fail while others have good results? Many people do not know what insecticide or fungicide to use. Some do not understand how to apply the chemicals. Still others don't know when to start spraying or dusting.

Remember, too that one spraying or dusting is not enough. Often a gardener sprays or dusts to control a certain insect only to see many more of these insects a few days later; he thinks the chemical has failed. What probably happens is that these insects hatch after the spray or dust is applied. Many chemicals have little or no effect on egg masses and from plants. If plant leaves this is the main reason that spraying or dusting at regular intervals is recommended. To have a successful garden pest control: Buy a good spray-

er or duster to be sure the one you have is in good condition. Apply the dust or spray to both top and bottom sides of leaves. Start spraying or dusting at the first sign of pests and continue at 7-10 days intervals until harvest time. Destroy plants as soon as harvest is over. Before using any chemical, read with care the manufacturer's instructions printed on the package; then be sure to follow them closely.

Have certain chemicals on hand before the spraying or dusting starts. For controlling rots and blight, you'll need either Maneb or Zineb (50 to 80 percent strength for spraying, 5 to 7 percent for dusting). For insect control use Methoxychlor or Sevin; with any of these last three chemicals, you'll need 50 percent strength for spraying, 5 percent for dusting.

Usually, plants damaged most by rots or blights are tomatoes, potatoes, peppers, eggplant, and vine crops (cucumbers, muskmelon, squash, etc.). When spraying or dusting these crops, mix the Maneb or Zineb, with the insecticides.

The two general classes of common garden insects. Chewing insects are those which actually eat the plants. Sucking insects feed by sucking sap from plants. If plant leaves curl downward or the plant is wilted or has a generally poor appearance look for sucking insects on the lower sides of leaves and stems.

Causes of Garden Problems
Home gardeners often think their vegetables need more plant food when the trouble actually is caused by insects or disease.

Problems most frequently mentioned concerned peas, beans, sweet corn, and tomatoes. Peas turned yellow about the time they bloomed; this was most likely an insect problem. The second and third plantings of beans yellowed; this could have been a soil-borne disease. Sweet corn had dead areas in the leaves; this might have been caused by a bacterial disease. Similar problems in tomato production probably were caused by early or late blight.

"After studying the soil test results of several hundred samples in the past few years, we have concluded that very few home gardens could be improved by large applications of fertilizer." A little fertilizer should be applied each year to

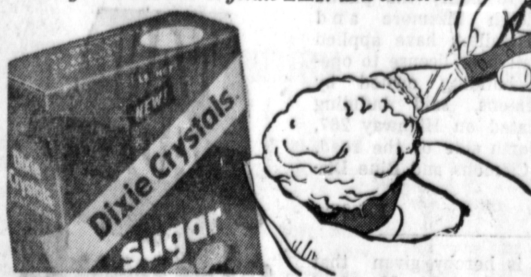

maintain a high state of soil fertility; but most gardens require no more than 5 to 10 pounds of 5-10-10 or 6-12-12 per 1,000 square feet of area each year.

The following suggestions

will help with common garden problems. No vegetable should be planted in the same area of the garden more often than every three years; this will aid in control of soil-borne diseases.
